Dear Parents,

Greetings from New Indian Model School, Dubai.

Seasonal influenza is an acute respiratory infection that spreads easily in all age groups. If your child is experiencing flu symptoms like fever, cough, sore throat, headache, nasal congestion and general fatigue, we recommend you to consult a doctor and do not send them to school for a minimum of 5 days. Please inform the school Clinic, if your child is diagnosed with influenza, so we can monitor the class. Best way to prevent flu and to avoid its complications is to take the influenza vaccine.
